

# GRI GOLD Community

Shape the future of sustainability and reporting!

In this new era of sustainability and the post-2015 Development Agenda, there is increasing momentum for change. Businesses are taking action towards a more sustainable world, but a transformational effort is required by all actors to unlock the real value of sustainability data and live up to the ambitious agreements made at COP21. Working separately and on isolated efforts is not an option; by working together, we can build on our common goal - a more sustainable, secure, and stable economy and world. The GRI GOLD Community offers organizations around the world a unique opportunity to join a collaborative, global multi-stakeholder network to do exactly this.

## Why join the GRI GOLD Community?

GOLD Community members are GRI's core supporters. They are at the heart of the community shaping the future of sustainability and reporting, and empowering decision making towards a more sustainable economy and world. The GRI GOLD Community includes diverse companies and organizations across business, consultancies, civil society, academia, labor, public and intergovernmental agencies.

GOLD Community members are always up to date with the latest insights and trends in sustainability and reporting, demonstrate leadership, collaborate with peers, and form a global community of practice and knowledge sharing.
